

# EdTech Startup Execution Kit (Step-by-Step)

## 1. Niche & Offer

- 1 Choose one niche: Placement Prep (Coding + Aptitude)
- 2 Define offer: 'Get placement ready in 60 days'

## 2. MVP Development Plan

- 1 Frontend: React.js (Login, Dashboard, Course Page)
- 2 Backend: Spring Boot APIs
- 3 Database: MySQL
- 4 Use YouTube unlisted videos for content
- 5 Add quiz system (important feature)

## 3. Project Structure

- 1 Frontend: components/, pages/, services/
- 2 Backend: controller/, service/, repository/
- 3 Database: users, courses, progress tables

## 4. Landing Page Content

- 1 Headline: Crack placements in 60 days
- 2 Sections: Benefits, Course content, Pricing, Testimonials
- 3 CTA: Join Now

## 5. First 50 Users Strategy

- 1 WhatsApp outreach
- 2 LinkedIn messages
- 3 College groups
- 4 Offer early access pricing

## 6. DM Script Example

Hi, I built a placement prep platform for coding + aptitude. Would you like early access at ■499?

## **7. Revenue Plan**

- 1 Start with ■499
- 2 Increase to ■999 after validation
- 3 Add premium features later

## **8. Scaling Plan**

- 1 Add mock interviews
- 2 Run ads
- 3 Build team
